

## Personal Loss Prevention Plan for 2010

Risk Recognition = Loss Prevention

Your 2010 Personal Loss Prevention Plan will include your personal risk assessment and what action **you** will take to mitigate your risk, keeping yourself and others safe and preventing loss. It does not have to conform to any specific format and there is no set number of risks or actions.

The only criteria for a Personal Loss Prevention Plan are: identifying your risk, taking action to address the risk and having people recognize your loss prevention efforts in action. Your Personal Loss Prevention Plan should be focused on you, your behavior and accountability.

My Risk is: **Falling down stairs - slip, trip and falls while attending meetings.**

My Risk is: **Failure to involve the right people when I'm working on projects that are new to me.**

My Risk is: **Motor Vehicle Crash – driving to and from work.**

The Action I will take: I will hold the handrail when ascending and descending stairs. I must have one hand free to do so.

The Action I will take: I will involve the right people whenever I'm completing tasks and actions that are new to me. I will follow the Tenets and conduct and LPSA whenever conditions change.

The Action I will take: I will adhere to the speed limit and I will come to a complete stop at all stop signs. I'll also create a journey plan and limit any distractions.

The Action I will take: I will complete my LPSA whenever conditions change.

The Action I will take: I will complete a vehicle "walk around" inspection before driving any car – company or personal.
